

Setting up Linphone Account on iPhone

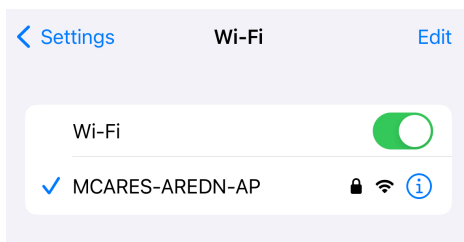

Go to the App Store

Download Linphone App from the App Store

Go to Settings on your iPhone

Under Cellular - make sure Wifi Calling is ON

Set Your Wifi to: MCARES-AREDN-AP
Password: Whenalleftsefai1s!

Open the Linphone App

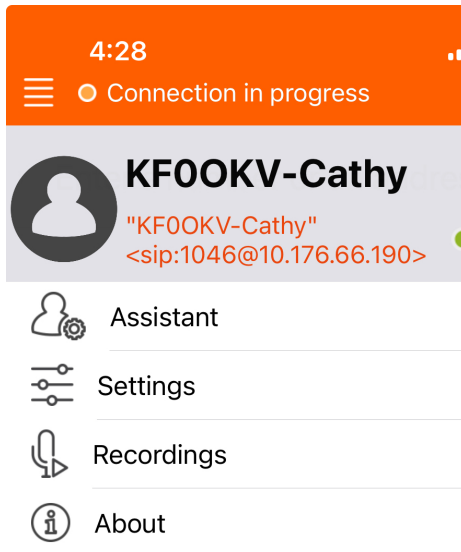

You will have multiple windows popping up asking questions:

Allow Microphone - Must Allow

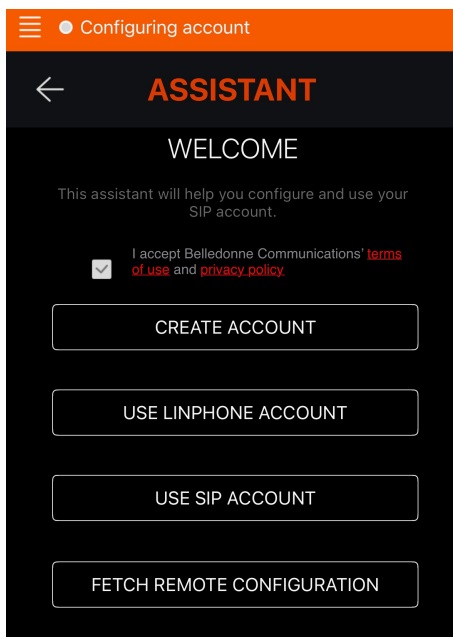

Allow Notifications - Must Allow

Allow Photos - Up to you

DO NOT Allow Contacts (these are your cellphone contacts)

Run Assistant

Click Box to accept Terms & Conditions
Select Use SIP Account

ASSISTANT

Some features require a Linphone account, such as group messaging or ephemeral messaging.

These features are hidden when you register with a third party SIP account.

To enable it in a commercial project, please contact us.

USE YOUR SIP ACCOUNT

Enter your username and password with your SIP domain.

USERNAME

PASSWORD (OPTIONAL)

DOMAIN

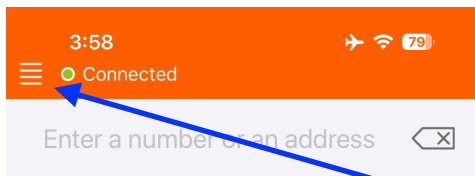

DISPLAY NAME (OPTIONAL)

TRANSPORT

UDP | TCP | TLS

LOGIN

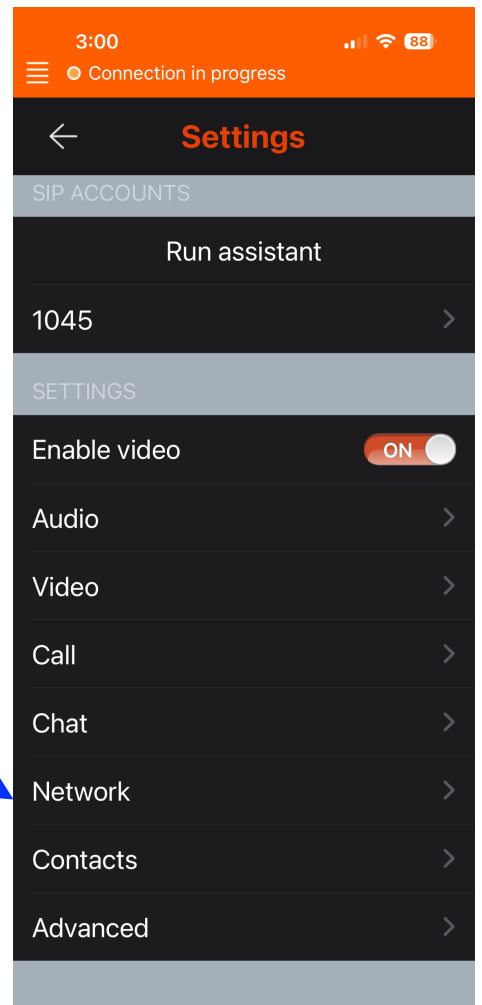

Username = phone number provided by Bill K0DZ
Password = provided by Bill K0DZ
Domain = 10.176.66.190
Display Name = Optional (You can put in whatever you wish to use. For example - Callsign - Name)
UDP should be selected
Click Login

Go to the 4 lines in the upper left corner
Select Settings

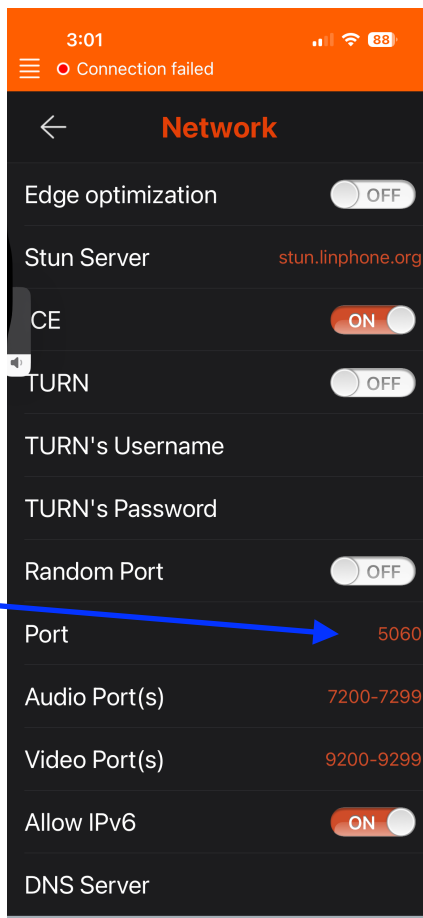

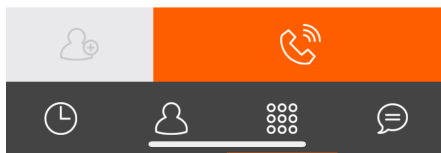

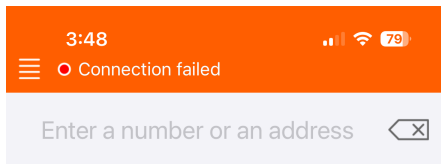

Select Network

Make sure Random Port is
toggled to OFF

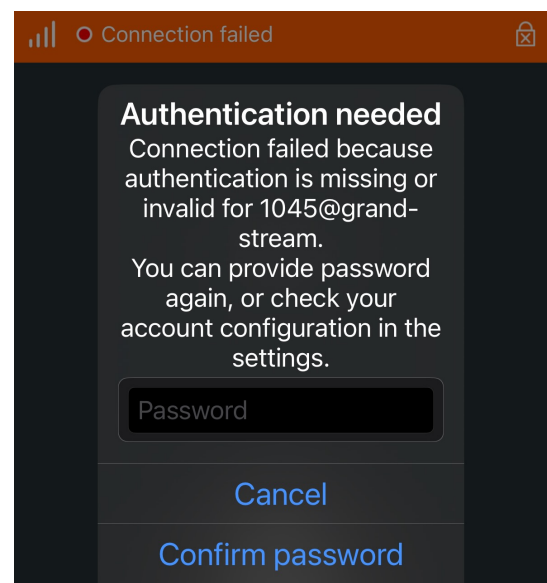

Port = 5060 (Should be
automatic when you toggle to
OFF)

If all goes well you should be connected BUT in most cases your connection will fail - but there is a trick. As you try to connect, you will notice there is a window requesting Authentication that pops up but doesn't stay up long enough for you to even read. You have to enter your password here in order to connect properly but you can't get to the window to do it.

The Trick: In order to keep the Authentication Window open, go to the keypad and dial a phone number (any number will do). The window requesting Authentication Needed will stay up - input the password (provided by Bill) and click "Confirm password".

The dot next to the word Connected in the upper left corner should now magically turn green.
Voilà! You are connected!
